Slowly Jack learns the pleasures of writing poetry as Miss Stretchberry encourages him to tell his own story through verse. What emerges is a moving and memorable story about a boy and his dog and his growing passion for poetry.

The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explainin appropriate practice.

The latest addition to The Open and Flexible Learning Series addresses the challenges created by the successes and the failures of the universal primary education campaign. It advocates new approaches for providing access to secondary education for today's rapidly growing youth population.

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

In this revised and updated 4th edition, Discipline with Dignity provides in-depth guidance for implementing a proven approach to classroom management that can help students make better choices and teachers be more effective. Emphasizing the importance of mutual respect and self-control, the authors offer specific strategies and techniques for building strong relationships with disruptive students and countering the toxic social circumstances that affect many of them, including dysfunctional families, gangs, and poverty. Educators at all levels can learn The difference between formal and informal discipline systems and when to use each. The role of values, rules, and consequences. How to address the underlying causes of discipline problems that occur both in and out of school. What teachers can do to defuse or prevent classroom disruptions and disrespectful behavior without removing students from the classroom. Why traditional approaches such as threats, punishments, and rewards are ineffective—and what to do instead. How to use relevance, teacher enthusiasm, choice, and other elements of curriculum and instruction to motivate students. How to reduce both teacher and student stress that can trigger power struggles. With dozens of specific examples of student-teacher interactions, Discipline with Dignity illustrates what you can do—and not do—to make the classroom a place where students learn and teachers maintain control in a nonconfrontational way. The goal is success for all, in schools that thrive.

A fully revised and updated second edition, including new research and skills in the areas of trauma and compassion Disruptive behavior in the classroom, poor academic performance, and out-of-control emotions: if you work with adolescents, you are well-aware of the challenges this age group presents, as well as how much time can be lost on your lessons while dealing with this behavior. What if there was a way to calm these students down and arm them with the mindfulness skills needed to really excel in school and life? Written by mindfulness expert and licensed clinical psychologist Patricia C. Broderick, Learning to Breathe is a secular program that tailors the teaching of mindfulness to the developmental needs of adolescents to help them understand their thoughts and feelings and manage distressing emotions. Students will be empowered by learning important mindfulness meditation skills that help them improve emotion regulation, reduce stress, improve overall performance, and, perhaps most importantly, develop their attention. Since its publication nearly a decade ago, the L2B program has transformed classrooms across the US, and has received praise from educators, parents, and mental health professionals alike. This fully revised and updated second edition offers the same powerful mindfulness interventions, and includes compelling new research and skills in the areas of trauma and compassion. The book integrates certain themes of mindfulness-based stress reduction (MBSR), developed by Jon Kabat-Zinn, into a program that is shorter, more accessible to students, and compatible with school curricula. This easy-to-use manual is designed to be used by teachers, but can also be used by any mental health provider teaching adolescents emotion regulation, stress reduction and mindfulness skills. The book is structured around six themes built upon the acronym BREATHE, and each theme has a core message: Body, Reflection, Emotions, Attention, Tenderness, and Healthy Mind Habits, and Empowerment. Learning to Breathe is the perfect tool for empowering students as they grapple with the psychological tasks of adolescence. Make this new edition a part of your professional library today!
