A3 problem solving is a tool that is used for reporting problems, improvements and changes in continuous quality improvement initiatives. A3 refers to the size of paper on

# Where To Download A3

which the report is presented. This tool uses a cyclical learning process that mirrors PDCA (Plan, Do, Check and Act) and can be a powerful tool for process improvements.

Since the purpose of the A3 process is to solve problems or address needs, the first, somewhat unwritten, step is that you need to identify a problem or need. 1: Capture the current state of the situation  
Once you align around the problem or need you'd like to

# Where To Download A3

address, then it's time to capture and analyze the current state of the situation.
