### Accelerated Learning How

In accelerated learning, each material and learning activity builds on the one before, so you develop your skill exponentially. For the example above, consider what you need to know before starting to practice. Perhaps you should first read about engagement techniques, then shadow your manager, then learn best practices from top executives.

Although this accelerated learning term sounds like cramming, it isn't. Instead, putting on a timer and gobbling up as much related information as you can helps foster better understanding. It's a powerful alternative to saying "I don't understand." Instead, you tell yourself "I'm going to understand this."
