"Entertaining, informative reading." - Kirkus Reviews Discover how in almost every area of our lives, our behaviour is influenced far more by others than we'd like to imagine. Teenage cliques, jihadist cells, army units, polar expeditions, and football hooligans -- on the face of it, each of these groups might

seem exceptional, but the forces that bind and drive them can affect us all. In recent decades, psychologists have uncovered how and why our innate social urges holds huge sway over how we think and act, propelling us to both high achievement and unthinking cruelty. We are beholden to our peers, even when we think we're calling the shots. This is the power of others. In this captivating work, science writer Michael Bond investigates the latest breakthroughs in social psychology to reveal how to guard against groupthink, build better teamwork, identify shared objectives, become more ethical, and survive moments of isolation.

Taking Woodstock is the funny, touching, and true story of Elliot Tiber, the man who was instrumental in arranging the site for the original Woodstock Concert. Elliot, whose parents owned an upstate New York motel, was working in Greenwich Village in the summer of 1969. He socialized with the likes of Truman Capote, Tennessee Williams, and photographer Robert Mapplethorpe, and yet somehow managed to keep his gay life a secret from his family. Then on Friday, June 28, Elliot walked into the Stonewall Inn—and witnessed the riot that would galvanize the American gay movement and enable him to take stock of his own lifestyle. And on July 15, when Elliot learned that the Woodstock Concert promoters were unable to stage the show in Wallkill, he offered to find them a new venue. Soon he was swept up in a vortex that would change his life forever.

This easy-to-use resource is a compilation of theoretical background and concrete approaches designed to increase understanding and outline strategies to support autistic children and young people who experience anxiety in the school environment. Each chapter offers practical information and strategies that may help reduce the negative symptoms of anxiety and help support emotional resilience across home and school environments. Key features of this book include: Chapters aimed at enhancing the understanding of anxiety in autism, considering potential triggers of anxiety, discussion on cognitive theories, social communication and means of assessing anxiety. A wealth of downloadable anxiety management strategies and resources that can be adapted and used by a teacher, parent or other professional. This resource has been developed by the multidisciplinary team at Middletown Centre for Autism, and is a useful resource for the busy parent, teacher and other professionals who wish to provide individualised support strategies for anxiety across a range of settings.

Villamar examines the role of Portuguese merchants in the formation of the Manila Galleon as a system of trade founded at the end of the sixteenth century. The rise of Manila as a crucial transshipment port was not a spontaneous incident. Instead, it came about through a complex combination of circumstances and interconnections that nurtured the establishment of the Manila Galleon system, a trading mechanism that lasted two and half centuries from 1565 until 1815. Villamar analyses the establishment of the regulatory framework of the trade across the Pacific Ocean as a whole setting that provided legality to the transactions, predictability to the transportation and security to the stakeholders. He looks both at the Spanish crown strategy in Asia, and the emergence of a network of Portuguese merchants located in Manila and active in the long-distance trade. This informal community of merchants participated from the inception of the trading system across the Pacific, with connections between Europe, ports in Asia under the control of Portugal, the Spanish colonies in America, and the city of Manila. From its inception, the newly-founded capital of the Philippines became a hub of connections, attracting part of the trade that already existed in Asia. Surveying the Portuguese commercial networks from the 'Estado da Índia' across the 'Spanish lake,' this book sheds light on the early modern globalization from a truly comprehensive Iberian perspective. This is a valuable resource for scholars of Pacific and Iberian trade

history and the maritime history of Asia.

This outstanding global survey brings together the dazzling talent of 50 leading illustrators from over 20 countries, among them Julia Rothman, Whitney Sherman and Mike Perry, and also provides them with the opportunity to indulge in a brilliant, creative experiment. The book is curated into two interleaved strands: in the first, each illustrator showcases their own work and is interviewed by the author to shine a light onto what inspires and motivates them. The second strand is a collaborative project with illustrators working in pairs to create original work to one of 25 briefs from the author based on themes ranging from 'beauty' to 'beast' and 'speed' to 'excess'. Each collaboration is accompanied by a joint interview with the two illustrators.

This book presents the first systematic critical exploration of the philosophical and political thoughts of Mahatma Gandhi and Sri Aurobindo, both pioneers of modern Indian thought. Bringing together experts from across the world, the volume examines the thoughts, ideas, actions, lives and experiments of Mahatma Gandhi and Sri Aurobindo on themes such as radical politics and human agency; ideals of human unity; social practices and citizenship; horizons of sustainable development and climate change; inclusive freedom; conceptions of swaraj; interpretations of texts; Sri Aurobindo's views on Indian culture; integral yoga; transformative leadership; Anthropocene and alternative planetary futures. The book discusses the contemporary legacies and works of the two influential thinkers. It offers insights into historical, philosophical, theoretical, literary and sociological questions that establish the need for transdisciplinary dialogues and the relevance of their visions towards future evolution. This book will be useful to scholars and researchers of political science, Indian political thought, comparative politics, philosophy, Indian philosophy, sociology, anthropology, modern Indian history, peace studies, cultural studies, religious studies and South Asian studies.

Este libro reúne contribuciones de destacados investigadores de la lingüística hispánica para ofrecer un panorama integral de los castellanos del Perú, incluidos algunos que han sido tradicionalmente objeto de discriminación, como el castellano andino, el amazónico y el afroperuano. Los capítulos se concentran en diferentes variedades habladas en el Perú desde distintos enfoques teóricos y metodológicos, atendiendo a su formación, su contexto social e histórico y los fenómenos de contacto que las caracterizan. De este modo, aunque el volumen tiene un foco regional muy específico, los problemas que aborda son de interés y relevancia para el estudio de otras variedades del español, para el tratamiento de otros problemas derivados del contacto lingüístico y para la dialectología e historia de los castellanos latinoamericanos en general. Escrito en castellano, este volumen será de interés para estudiantes graduados en lingüística hispánica e investigadores dedicados a la dialectología, la sociolingüística y la lingüística del contacto.
