Named one of the most important nonfiction books of the 21st century by Entertainment Weekly , Slate , Chronicle of Higher Education , Literary Hub, Book Riot , and Zora A tenth-anniversary edition of the iconic bestseller— “ one of the most influential books of the past 20 years, ” according to the Chronicle of Higher Education—with a new preface by the author “ It is in no small part thanks to Alexander ’ s account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system. ” —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander ’ s *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander ’ s unforgettable argument that “ we have not ended racial caste in America; we have merely redesigned it. ” As the Birmingham News proclaimed, it is “ undoubtedly the most important book published in this century about the U.S. ” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

Longtime Myers collaborator Richard Straub provides an updated study guide for the new edition.

The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser / recipient must also successfully perform a safe handling demonstration with
