inscribed long ago,

such as the Nag

the Dead Sea Scrolls.

Words paint mental

pictures that enfold in

our minds, and we

call this "getting

answers." At times,

we take these images

as the only truth

there is, since we can

see or imagine it. We

base this personally

Conceived truth on

what we learn in life.

Should we not ask

ourselves: what if all

this is based on

falsehoods? These

mental illustrations -

that we call

"thoughts" - are

founded solely on

what we have seen or

read. Most of the

time, we compare

them, and in this

fashion, we develop personal beliefs according to our choices. This practice is not specifically reserved for the individual. It spreads throughout our society, when each and every human experiences the same event or feeling, or reads a similar book. As a result, the

Online Library

Dmr Eh55

collective mindset -
sometimes called the
"over mind" - now
generates large-scale
belief systems that, in
time, we have termed
as "religion." Entire
nations have been
known to bond in the
same creed. Even
when founded with
the best of intentions,
these systems tend to
bind us as a group,

Morris ' s only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

"Hormegeddon" is the

term coined by entrepreneur and New York Times Bestselling Author Bill Bonner to describe what happens when you get too much of a good thing in the sphere of public policy, economics and business. Simply put, it ends in disaster. Drawing on stories and examples from

Dmr Eh55

throughout modern political history-from Napoleon's invasion of Russia to the impending collapse of the American healthcare system, from the outbreak of WWII and the fall of the Third Reich to the 21st century War on Terror, from the Great Recession to the sovereign debt crisis-

Online Library

Dmr Eh55

Bonner pursues a

modest ambition: to understand what goes wrong. History is not a clean yarn spun by its victors. It is a long tale of things that went FUBAR- debacles, disasters, and catastrophes. That each disaster carries with it a warning is what makes it useful to

Online Library

Dmr Eh55

Study. For instance, if the architect of a great ship tells you that 'not even God himself could sink this ship, ' you should take the next boat. If the stock market is selling at 20 times earnings and all the expert analysts urge you to 'get in' because you 'can't lose'-it's time to get out!

Dmr Eh55

Similarly, public policy disasters are what you get when well meaning people with this same Titanic degree of certitude apply rational, small-scale problem-solving logic to inappropriately large scale planning. First, you get a declining rate of return on your investment (of time or

Online Library

the first place. From
the mind of Bill
Bonner comes
Hormegeddon, a
phenomenon that
occurs when a small

produces a favorable

increase the dosage,
the results end in
disaster. The same
applies when the
world gets too much

of a good thing in
public policy,
economics, and
business. Drawing on
examples throughout
modern political
history, Bonner
brings context and
understanding to this
largely ignored and
anonymous
phenomenon.
