Dragons of Autumn Twilight was the first
novel of the Dragonlance series. It was
based upon a Dungeons & Dragons
session played by the authors with some of
their friends, some of whom later became
Dragonlance writers. The novel was
written after the completion of the first
Dragonlance game modules. Weis and
Hickman felt this was constraining and

made the novel feel too episodic, so they reversed the process for the next books and completed the novels before the related modules were written.

Dragons of Autumn Twilight is a read
down the memory lane. If I were to rate it
on the basis of my current standards and
preferences, it would score 3 stars the
most. As it is, it has been one of the earliest
fantasy books I have ever read and it still
engulfs me in the fuzzy warmth of initial
wonder that there are other fantasy books
beside the Lord of the Rings and that I can
read them and love them as much as I like.
