individualised to the patient. Within the context of providing nursing care, the ultimate goal is to influence health outcomes and improve the patient's health status.

Nursing Process in Psychiatric Nursing

2. ensuring access to health care
3. encouraging and providing support (for families, individuals, organizations)
4. providing ongoing education
5. providing mentoring
6. supporting patients with defining their personal life goals and in their efforts to achieve those goals
7. reducing the stigma
