The map shown here is a terrain relief image of the world with the boundaries of major countries shown as white lines. It includes the names of the world's oceans and the names of major bays, gulfs, and seas. Lowest elevations are shown as a dark green color with a gradient from green to dark brown to gray as elevation increases.

A map of cultural and creative Industries reports from around the world.

~~World Map — Google My Maps~~
The world map we accept today, known as the Mercator map, made in 1569 by geographer Gerardus Mercator, largely misreports the sizes of Greenland, Africa, and Antarctica. However, the AuthaGraph World Map takes into consideration their actual sizes, the ozone hole above Antarctica, our changing world due to global warming, the continental drift, and how the poles are melting away.
