Packt is the online library and learning platform for professional developers. Learn Python, JavaScript, Angular and more with eBooks, videos and courses

Packt | Programming Books, eBooks & Videos for Developers

When the MapReduce job is invoked, Hadoop invokes the setup method of mapper class, where the mapper loads the current clusters into memory by reading them from the HDFS filesystem. As shown by the figure, Hadoop will read the input file from the input folder and read records using the custom formatter, that we introduced in the Write a formatter (Intermediate) recipe.
