Author John M. Living clearly knows his subject well. He starts out with something I'm familiar with concerning intuition, which is there are three kinds that you might get; those that jump out of nowhere and are unmistakable, those that are just a hunch and those that you deliberately tap into somehow.

New devices that use VR, robotics and other technologies have hit the market that help the elderly live longer, healthier lives. These innovations include VR headsets for seniors with Alzheimer's ...

Living pens an in-depth look at how to understand oneself and how one operates in this energetic environment--how the heart-mind-brain team manipulates the nervous-muscular system to signal responses.

The author presents ways to tap into intuition and use it as a guide to success.

This resource details new and improved methods of healing using colors, radionics, bio-scalar energy, and focal touch, with exercises to improve a person's abilities to use his or her Soul Senses and extend visualization.

The authors compile a record of the identification and location of energies from the Earth which are noxious to human beings and others.

Spirit possession is the interference by others (physical and non-physical) in the mental, emotional, spiritual, or physical well-being of a person. Exorcism is the process of removing such interference.This book tells about the different types of possession, how they occur, typical symptoms, and suggests a way to be free of them - knowing that distant exorcism by specialists is most effective.

Our Battle for the Human Spirit is a comprehensive probe into what is happening to human life in the beginning of the 21st century. It explores how culture, experience, and symbolization have been replaced by scientific, discipline-based, approaches.

This book explores the writings of philosopher and educator, John Dewey, in order to develop an expansive vision of aesthetic education and everyday poetics of living. Robert Pirsig's best-selling book, Zen and the Art of Motorcycle Maintenance , provides concrete exemplifications of this compelling yet unconventional vision.
