An edition expanded with more than 100 pages of new content offers a blueprint for a better life, whether one's dream is escaping the rat race, experiencing high-end world travel, earning a monthly five-figure income with zero management or just living more and working less.

At the peak of his career and success, Ari Meisel nearly killed himself from exhaustion and overwork. He had to make a choice: he could let his "success" destroy him physically and mentally, or he could find a better way to live. He spent the next few years redesigning his life from scratch. Ultimately he found the way to reduce his workload by 80%, while actually increasing results and success. Furthermore, he could spend time on what matters most: his family. "This book describes his method. " Using Meisel's revolutionary Optimize, Automate, Outsource approach, you will learn how to take almost anything you do and make it work smarter, instead of harder. Modern methods like the 80/20 rule, the 3 D's, and multi-platform repurposing let you build a high-powered, traditional-style "success factory" that only requires one employee to run. Less work, more results, more happiness.

The American way of life pushes people to constantly strive for more—more money, more stuff, more clout. But how much is enough? And how do we know when we have too much of a good thing? In this provocative, paradigm-shifting book, Will Davis Jr. challenges readers to discover the peace that comes through contentment with what we have and compassion for those in need. Through surprising statistics, scriptural insight, and real-life stories, Davis gently leads readers to consider living with less in order to do more for the kingdom. Thought-provoking discussion questions and short chapters make this a perfect study for small groups. No one will come away from this powerful book unchanged.

He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen ' s thinking is rooted in his deep religious faith, these are strategies anyone can use.
