Magnum's remarkable consistency since reuniting is something to be celebrated, with Lost on the Road to Eternity a return to form after the uncharacteristically bland Sacred Blood "Divine Lies". Some may be shocked that a band this far into their career are capable of producing music this good, but Magnum fans will know this is simply par for the course.

On The Road, the most famous of Jack Kerouac's works, is not only the soul of the Beat movement and literature, but one of the most important novels of the century. Like nearly all of Kerouac's writing, On The Road is thinly fictionalised autobiography, filled with a cast made of Kerouac's real life friends, lovers and fellow travellers. Narrated by Sal Paradise, one of Kerouac's alter-egos ...

relationships with her family, friends and the people she serves. Samantha and her rookie partner stumble onto a plot to distribute contaminated medicine. Their discovery puts the medics in grave danger and tests the limits of their cunning and loyalty. Set against the backdrop of a gang war and a violent protest against a local abortion clinic, it's difficult at times for the partners to know if there is an actual plot against them or if they're simply in the wrong place at the wrong time. Samantha's world is brutal and unpredictable, but it is also a place where strangers care for others in the most extraordinary conditions. To triumph--and survive--Samantha must find a way to rekindle the humanity she believes she has lost.

Road racing has long-storied roots in North America that reach from coast to coast and to Canada. Some of the greatest drivers to ever compete raced wickedly fast machines, staged epic duels on winding strips of asphalt, and created history. This history left an enduring legacy that is revealed and

celebrated in Lost Road Courses. Road racer and road racing expert Martin Rudow retraces road racing's glorious past and visits the defunct classic road courses across the United States and Canada. Many road courses were built in the 1950s and 1960s, the golden age of American road racing. These classic road courses built and hosted famous races for Trans-Am, Can-Am, IndyCar, Formula 1, and sports car racing, but did not survive the times. They fell victim to changing times, poor business decisions, urban sprawl, safety standards, and increasing real estate prices. Rudow recounts the breathtaking races and fascinating history of more than 16 tracks from around North America. Riverside International Raceway, Bridgehampton Race Circuit, Ontario Motor

Speedway, Continental Divide Raceway, and many others were once major race venues that have since closed. The great race teams, legendary drivers, classic race series that visited the tracks, and cars that turned laps are brought into full focus. The exploits of Chaparral, McLaren, Bud Moore, Lotus, Penske, and other race teams as well as racing greats Mario Andretti, Parnelli Jones, Jim Hall, A. J. Foyt, Al Unser, Jim Clark, and Dan Gurney are covered. Rudow also digs beneath the surface to reveal the story behind the story. The visionaries and businessmen who saw potential and risked capital to build these palaces of speed come back to life. He also recognizes the unsung heroes and regional racers who competed, staffed, and took on various roles at these tracks. In the pages of

this book, a nostalgic tour of these famous races at these vintage road circuits unfolds. Many period photos illustrate the racing action and the tracks themselves in their former glory, and modern color shows the tracks as they currently stand. If you're a fan of classic sports car, Can-Am, Trans-Am, IndyCar, Formula 1, as well as classic and unique tracks of yesteryear, this book is a must-have.

"Lands of Lost Borders carried me up into a state of openness and excitement I haven't felt for years. It's a modern classic." —Pico Iyer A brilliant, fierce writer makes her debut with this enthralling travelogue and memoir of her journey by bicycle along the Silk Road—an illuminating and

thought-provoking fusion of *The Places in Between*, *Lab Girl*, and *Wild* that dares us to challenge the limits we place on ourselves and the natural world. As a teenager, Kate Harris realized that the career she craved—to be an explorer, equal parts swashbuckler and metaphysician—had gone extinct. From what she could tell of the world from small-town Ontario, the likes of Marco Polo and Magellan had mapped the whole earth; there was nothing left to be discovered. Looking beyond this planet, she decided to become a scientist and go to Mars. In between studying at Oxford and MIT, Harris set off by bicycle down the fabled Silk Road with her childhood friend Mel. Pedaling mile upon mile in some of the remotest places on earth, she realized that an explorer, in any day and age, is the

kind of person who refuses to live between the lines. Forget charting maps, naming peaks: what she yearned for was the feeling of soaring completely out of bounds. The farther she traveled, the closer she came to a world as wild as she felt within. *Lands of Lost Borders* is the chronicle of Harris's odyssey and an exploration of the importance of breaking the boundaries we set ourselves; an examination of the stories borders tell, and the restrictions they place on nature and humanity; and a meditation on the existential need to explore—the essential longing to discover what in the universe we are doing here. Like Rebecca Solnit and Pico Iyer, Kate Harris offers a travel account at once exuberant and reflective, wry and rapturous. *Lands of Lost Borders* explores the nature of limits and the

wildness of the self that can never fully be mapped. Weaving adventure and philosophy with the history of science and exploration, *Lands of Lost Borders* celebrates our connection as humans to the natural world, and ultimately to each other—a belonging that transcends any fences or stories that may divide us.
