Mercruiser Sterndrive Engine specifications
 The MerCruiser 454 marine engine, manufactured by Mercury Marine, is used to power the stern drive in many boats. It is a large engine, adequate for water-sports towing, and is generally used in larger runabouts and cruisers. Using the proper oil in the MerCruiser 454 engine will aid its longevity. Some marine-grade oils contain high phosphorus levels, which can damage the 454's catalyst system.

Mercruiser 454 MAGNUM Manuals | ManualsLib
 Measuring in at 7.4 liters or 454 cubic inches, your Mercury MerCruiser inboard V8 is a big beast, there's no arguing with that. Being big doesn't mean it has to be brutal. If you maintain your MerCruiser 454 regularly, it should run as smooth as silk.

MerCruiser 454 Parts | Boats.net
 I don't know much about engines and mechanics, but the 454 in the boat ran for 27 years. I forgot the hours since it was reset with the rebuilt engine (Brought a rebuilt engine) , but's its written down somewhere. But, it was used a lot I can tell you that! My dad had a 454 SS truck that had around 325k miles before the engine went out.

 Looking for some feedback for a friend that i boat with on the 7.4 L merc I/O, in either 1990, 1992, or 1996. Any suggestions, perks, or negatives to these engines, the 96 is a 310 HP. the other 2 i believe are 330 HP. Just wondering what the differences are for these 3 versions of the 454. I believe it is a Bravo One drive. The boat is a PowerQuest 22 foot, Doral Phazar 23 foot, or a Formula ...

Engine Oil Recommendation Chart - Mercruiser parts
 I've got what is supposed to be a stock 454 / 330hp in my boat. My SnapOn compression test gauge tells me that all the cylinders range between 152 and 156 psi, while cranking. I'm looking at another boat that I'm interested in, and the guy that owns it tells me he's running a stock 454 Mag, and the cranking compression checks at 126 +/- 3 psi.

Stock 454 Mag Compression Readings? - Speedwake 2.0
 Same power and more torque than a 454 HO carbureted engine. This torque monster delivers 429 ft-lbs of raw torque at 3800 RPM to launch even the heaviest boats with authority. When equipped with the same marine exhaust headers as found on the 383 Scorpion®, this engine produces 370 HP and 456 ft-lbs of torque-more than a 502 carbureted engine.
