"Delectable and easy-to-prepare recipes from the creator of the legendary Miss Vickie's potato chips. Vickie Kerr has always been passionate about preparing nutritious meals for her family, and it was her desire to make a healthier snack for her four young children that resulted in the recipe that launched one of the most successful potato chip brands in North America. Now, after more than thirty-five years preparing food for her family in her kitchen, she presents this collection of recipes and the story of a family legacy spanning decades. More than seventy recipes, from healthful salads and sides, to delicious entrées, hearty soups, and comforting casseroles, through classic desserts and preserves, and even the recipe for Vickie's potato chips! Instructions that are so simple and straightforward that even the newest cooks will feel confident getting into the kitchen. Vickie Kerr launched the Miss Vickie brand of potato chips in 1987 after creating an original recipe that used potatoes her husband, Bill, grew on their farm in New Lowell, Ontario. In 1993, her company was acquired by Frito-Lay, This is her first book. She divides her time between Arizona and Ontario"--Provided by publisher.

Why don't we feel the Earth move? Why does an ice cube float? Why can't you unscramble an egg? Why can't we live forever? These are all questions that a curious kid might ask. In What's the BIG Idea?, renowned juvenile science educator Vicki Cobb answers these and other fascinating questions to help kids learn more about the world through the wonders of science. A big idea is one that has no simple or easy answer, and there are four big ideas in this book: motion, energy, matter, and life. The motion of nonliving objects--rolling balls, falling stones, the moon and stars--seems so ordinary and familiar that most people take it for granted. Matter, on the other hand, comes in so many different forms--solids, liquids, gases, metals, nonmetals, living material--that it is hard to imagine anything that all matter has in common. Energy is an idea that is in the news just about every day, yet most people couldn't tell you what the big idea of energy is. And life--what life is--seems mind-boggling and infinitely complicated. How do we bend our brains around it? Scientists learn by asking questions. And this book,

now in paperback, is designed to make young readers stop and think about each of the questions before reading what scientists have learned that answers each question. They'll be able to do simple things to see for themselves, and they will build their own scientific knowledge in the process. By the time they've finished this book, they'll get the big picture of what science is all about.

Johnny is excited that it is snowing outside and all of the yards are covered with cold, crisp snow—the perfect kind of snow to build a snowman! After Johnny neatly stacks one huge snowball on top of the other, he runs inside to find the perfect outfit to dress up his new friend. Children will delight when the snowman becomes a pirate, a clown, and even a regular snowman, as all Johnny's friends help play "dress-up". But as the weather gets warmer, Mr. Snowman gets smaller and smaller, and Johnny gets sadder and sadder. Find out how Johnny's mother helps Johnny remember his favorite friend until winter comes again next year.

Vicki Lawrence, the comic co-star of The Carol Burnett Show, describes the high school fan letter that led to her meeting Carol Burnett, her achievements on Mama's Family, and her syndicated talk show. 50,000 first printing.

This book was not intended to be about me. It is a memoir, yet, I truly do not consider myself so significant that anyone would want to read my memoirs. It consists of stories throughout my life that have been significant because of the lessons learned. If not for the belief that I am here as a student, in this University called Earth, with the ultimate goal of evolving spiritually, then life in and of itself would be an existential purgatory. I write to teach. The paradox is that we are alone in this journey called life, yet we are never truly alone. We are all connected. Embrace the Lessons speaks to a Universal truth that acknowledges that the purpose of the human experience is to grow as spiritual beings. I share with you my personal stories of transcendence, in the hopes that you will become open to your own. You are invited to open yourself to the lessons that Life has to offer. Embrace the Lessons is a look inside one woman's journey to remain on the path of healing and transcendence. Much of this book was written over the course of three decades. It is packed with insight and inspiration. It is thought provoking, heart-felt, and entertaining. It is written for you. It is written to inspire you to engage in frequent acts of courage and stamina in order to awaken to your own personal growth and transformation. Awaken to your Teachers. Listen, watch, and observe the many forms in which they appear. Fear not. Open your mind and heart in order to Embrace the Lessons.

Raising Jess is the powerful story of one family's survival when faced with adversity. Written with compassion, honesty, and humor, it tells of a family changed forever by the birth of a child with special needs, and their courageous decision to choose hope. "I was twenty-four years old and about to deliver my first child. Oh, and I also had the chickenpox." So begins the story of a first-time mom who learns her infant daughter has severe, multiple disabilities. Facing the challenges of caring for her daughter, marriage struggles, and the question of having more children, Vickie Rubin gives a glimpse into the world of her family and transformation while Raising Jess. This beautiful, gripping memoir will delight and leave you wanting more. Vickie Rubin, M. S. Ed., received the Children's Guild Community Recognition Award for her extraordinary contributions to the community of children with special needs and their families. As Manager of the Early Childhood Direction Center for Kaleida Health and Project Director of the Western New York State Education Department ECDC program, Rubin was a frequent guest speaker at colleges and universities. Rubin is a regular contributor to the Buffalo News, a Pulitzer Prize-winning journal. She pens a popular blog, Vickie's Views (<https://vickierubin.com/>) where she posts inspiring stories of everyday life. Raising Jess: A Story of Hope is her first book. What readers say about Vickie Rubin's writing: · Beautifully written...and heartwarming. · It never ceases to enlighten, educate, and encourage me. It leaves me wanting more every time. Her writing never fails to validate my feelings. · Love her stories of life. · I'm in tears again. What an emotional story and, of course, informative, and educational.
