When Swallow, who suffers from debilitating migraines, finishes a stint in drug rehab, her daughter and the rest of her family want nothing more to do with her. She stays with a friend who talks her into joining a drug trial for a new headache medicine. A known side effect of the trial drug is vivid dreams, but Swallow thinks there\u2019s more to those dreams, which she calls journeys. She works on reestablishing a relationship with her daughter while journeying to other worlds through a now open doorway in her mind. On journeys, she meets Kai, who guides her through the quirks of many worlds. It\u2019s hard enough getting by in the world, especially when your family discarded you, but when you\u2019re involved in an almost unlimited number of worlds, isn\u201t it impossible? As Swallow tells her daughter, \u201cEverybody lives in many different worlds, be they private that not even your closest friends and family know about, your home world, your professional world, or others like educational, religious, military, sports, social, or what have you; learn to recognize them. Make sure you control your worlds rather than letting them control you. Sometimes it\u2019s easy to drift from one world to another, and sometimes barriers block you or suck you back to where you don\u201t want to be. Look at me with my addiction; it still tries to suck me back into that world. You pick your worlds. Don\u201t just go where the flow pushes you.\u201d

This book views Samsung Electronics in terms of corporate life cycle as well as product portfolio and strategy. It also examines the issues Samsung faces as it proceeds further into the 21st century. Written from the perspective of an experienced commentator on Korean and global business, this book presents not simply a narrative or an adulatory and uncritical account of Samsung\u2019s rise, but a considered analysis of the secrets of success that both business students and CEOs will want to read and consider applying to their own companies.

Drowning is among the ten leading causes of death for children and young people in every region of the world. The report sets out the evidence showing a range of effective drowning prevention strategies, and makes a number of recommendations for concrete measures to be taken by national and local governments. With the release of this report, WHO aims to galvanize attention and action to this issue by highlighting how collaboration across sectors can save lives.--Publisher description.
