The Missionary Sisters of St. Columban (commonly referred to as the Columban Sisters, abbreviated as S.S.C.) are a religious institute of Religious Sisters dedicated to serve the poor and needy in the underdeveloped nations of the world. They were founded in Ireland in 1924 to share in the work of the priests of the Missionary Society of St. Columban

Following the outbreak of WWI, the Order of St. John appealed for volunteers to train as frontline medical staff at a major volunteer field hospital in Etaples, France. One such volunteer was Lily Fielding. Despite her training she was ill-prepared for the stench of gangrene and other gruesome realities of war. This book is a heart-

warming account of camaraderie and compassion based on the true stories of the VAD nurses who were at the Somme. "I am liking it here very much and could never have thought I would for a moment. Of course there will always be days when the horror of nursing unnerves one." - Lily Fielding's diary, July 1916. Penny Starns is a writer and historian with a PhD in the history of medicine from the University of Bristol. She has written many books about female heroines in the twentieth century, including 'Odette: World War Two's Darling Spy' (The History Press, 2009), 'Surviving Tenko: The True Story of Margot Turner' (The History Press, 2010) and 'Blitz Families: The Children who Stayed Behind' (The History Press, 2012).

When the Blitz hit London, everything changed. Once, the Home Front was relatively safe - now it wasn't. Suddenly, London was its own front line. Blitz Hospital follows the fortunes of two major London hospitals as they struggled to cope with mounting wartime casualties: St Thomas' and The London. The diaries, letters and reports of medical and nursing staff highlight the many human stories of tremendous courage and hope that lived and breathed within the corridors of London's hospitals during the Blitz.

The evocative diaries of a young nurse stationed in northern France

during the First World War, published for the first time. A rare insight into the great war for fans of CALL THE MIDWIFE. In April 1915, Dorothea Crewdson, a newly trained Red Cross nurse, and her best friend Christie, received instructions to leave for Le Tréport in northern France. Filled with excitement at the prospect of her first paid job, Dorothea began writing a diary. 'Who knows how long we shall really be out here? Seems a good chance from all reports of the campaigns being ended before winter but all is uncertain.' Dorothea would go on to witness and record some of the worst tragedy of the First World War at first hand, though somehow always maintaining her optimism, curiosity and high spirits throughout. The pages of her diaries sparkle with warmth and humour as she describes the day-to-day realities and frustrations of nursing near the frontline of the battlefields, or the pleasure of a beautiful sunset, or a trip 'joy-riding' in the French countryside on one of her precious days off. One day she might be gossiping about her fellow nurses, or confessing to writing her diary while on shift on the ward, or illustrating the scene of the tents collapsing around them on a windy night in one of her vivid sketches. In another entry she describes picking shells out of the beds on the ward after a terrifying air raid (winning a medal for her bravery in the process). Nearly a hundred years on, what shines out above all from the pages of these extraordinarily evocative

diaries is a courageous, spirited, compassionate young woman, whose story is made all the more poignant by her tragically premature death at the end of the war just before she was due to return home.

This splendid and timely book will be invaluable to those visiting the battlefields, sites, museums, memorials and cemeteries of France and Belgium. It is intended for those planning and leading school groups and similar parties but is also ideal for individual/family visitors.??Rather than list every site etc it provides realistic itineraries to the best places in the two major areas of the Somme and Ypres. Even these are flexible to allow party leaders suitable discretion.??The author provides helpful information for each site such as its context in the War, visitor orientation, the 'spiel' (the essential facts to engage, inform and entertain), suggested activity and relevant photos and maps.??This combines to make every visit of maximum benefit and interest and yet reduce the workload of the party leaders.??There are also valuable tips for lunch breaks, free time ideas and other helpful pointers.

From one of our most distinguished historians, an authoritative and vivid account of the devastating World War I battle that claimed more than 300,000 lives At 7:30 am on July 1, 1916, the first Allied

soldiers climbed out of their trenches along the Somme River in France and charged out into no-man's-land toward the barbed wire and machine guns at the German front lines. By the end of this first day of the Allied attack, the British army alone would lose 20,000 men; in the coming months, the fifteen-mile-long territory along the river would erupt into the epicenter of the Great War. The Somme would mark a turning point in both the war and military history, as soldiers saw the first appearance of tanks on the battlefield, the emergence of the air war as a devastating and decisive factor in battle, and more than one million casualties (among them a young Adolf Hitler, who took a fragment in the leg). In just 138 days, 310,000 men died. In this vivid, deeply researched account of one history's most destructive battles, historian Martin Gilbert tracks the Battle of the Somme through the experiences of footsoldiers (known to the British as the PBI, for Poor Bloody Infantry), generals, and everyone in between. Interwoven with photographs, journal entries, original maps, and documents from every stage and level of planning, The Somme is the most authoritative and affecting account of this bloody turning point in the Great War.

battling on, she's now doing her bit for her country as an auxiliary nurse - but one thing above all else continues to weigh heavily on her heart: her long-lost sister. Born just before her mother died, the scandal was hushed-up and the baby spirited away. But now, at last, there is hope Lily could find her little sister for she has a clue to go on: the name of the notorious baby farmer who bought the child all those years ago. Mrs Jolley. Using all her pluck, and with the help of her two friends Margie and Fanny, Lily will do anything in her power to find her little sister and save her from the dark streets of London. With Winter drawing in, and the war with no end in sight, will she be able to bring her family together?

This, the first in a series of four unique War Diaries produced in conjunction with the Imperial War Museum, will tell a story that is rarely heard: the experiences of a nurse working close to the Western Front in the First World War. Incredibly, Edith Appleton served in France for the whole of the conflict. Her bravery and dedication won her the Military OBE, the Royal Red Cross and the Belgian Queen Elizabeth medal among others. Her diary details with compassion all the horrors of the 'war to end wars', including the first use of poison gas and the terrible cost of battles such as Ypres, but she also records what life was like for nurses and how she spent her time

off-duty. There are moments of humour amongst the tragedy, and even lyrical accounts of the natural beauty that still existed amidst all the destruction.

Originally published in 1964, this is a critically acclaimed classic history of the military engagements of the Somme that raged from July to November 1916. It tells of bloody battles interspersed with trench actions of dreadful intensity. In addition to the key confrontations, Farrar-Hockley provides a detailed background to the Somme planning and why it failed with dreadful casualties. In its entirety, the conflict along the Somme scarred the minds of a whole generation, becoming recorded by historians as the graveyard of the 'flower of British manhood'. With a new introduction by Charles Messenger, and a touching foreword by the author's son, Dair Farrar-Hockley, this new edition of *The Somme* is a testament to those who gave their lives on this famous battlefield.

A major new history of the most infamous battle of the First World War, as described by the men who fought it. On 1 July 1916, Douglas Haig's army launched the 'Big Push' that was supposed finally to bring an end to the stalemate on the Western Front. What happened next was a human catastrophe: scrambling over the top into the face of the German

machine guns and artillery fire, almost 20,000 British and Commonwealth soldiers were killed that day alone, and twice as many wounded - the greatest loss in a single day ever sustained by the British Army. The battle did not stop there, however. It dragged on for another 4 months, leaving the battlefield strewn with literally hundreds of thousands of bodies. The Somme has remained a byword for the futility of war ever since. In this major new history, Peter Hart describes how the battle looked from the point of view of those who fought it. Using never-before-seen eyewitness testimonies, he shows us this epic conflict from all angles. We see what it was like to crawl across No Man's Land in the face of the German guns, what it was like for those who stayed behind in the trenches - the padres, the artillerymen, the doctors. We also see what the battle looked like from the air, as the RFC battled to keep control of the skies above the battlefield. All this is put in the context of the background to the battle, and Haig's overall strategy for the Western Front, making this the most comprehensive history of the battle since Lyn MacDonald's bestselling work over 20 years ago.

On 1 July 1916, the 36th (Ulster) Division took part in one of the bloodiest battles in human history, the Battle of the Somme. This enduring war play is a powerful portrayal of mortality, love and loss.

In the extraordinary circumstances of World War I, eight ordinary men are changed, changed utterly. In 2016, one hundred years after the battle, *Observe the Sons of Ulster Marching Towards the Somme* by Frank McGuinness was revived in a co-production between Abbey Theatre, Citizens Theatre, Headlong and Liverpool Everyman & Playhouse. This edition contains a new introduction by P. J. Mathews. 'There is a touch of genius in McGuinness's, sensitive, often bleakly comic exploration of the men's situation.' Daily Telegraph 'This is an epic drama that demands recognition for the male human animal in all his complexity, across any boundaries of belief or belonging we care to construct.' The Scotsman
