Emmy Award-winning actress Kirstie Alley ' s candid and audacious memoir about her life and the men she has shared it with—for better and for worse. John Travolta. Parker Stevenson. Ted Danson. Maksim Chmerkovskiy. Kelsey Grammer. Patrick Swayze. Woody Allen. Woody Harrelson. And many others. . . . In three decades in Hollywood, Kirstie Alley has lived with, worked with, loved, or lost all of these men, and in this revealing memoir, she peels back the layers (and sometimes the sheets) on her relationships with all of them. From the early days of her childhood in Wichita, Kansas, surrounded by her loving father, her inquisitive and doting grandfather, and a younger brother she fiercely protected when she wasn ' t selling tickets to see him naked, Kirstie Alley ' s life has been shaped and molded by men. “ Men, men, glorious men! ” gave her her first big break in Hollywood and her awardwinning role on Cheers, and through two marriages, a debilitating cocaine addiction, the death of her mother, roles in some of the biggest comedies of the last twenty years, and a surprising stint on Dancing with the Stars, men proved to be the inspiration for multitudes of the decisions and dramas in Kirstie Alley ' s life. In this collection of linked essays that ' s both hilarious and poignant in turns, Kirstie chronicles all the good, the bad, and the ugly men who have influenced and guided her. She demonstrates how men can be the air that women breathe or the source of all of their frustrations. But for better or worse, Kirstie shows that a life well lived is a life lived in the company of men, especially if they remember to put the lid down. The Art of Men (I Prefer Mine al Dente) is a hilarious excursion into love, joy, motherhood, loss, sex, and self-discovery from one of Hollywood ' s most enduring stars.

Perry Palomino has fought her demons - and won - but the battle is far from over. She's now left broken and on her own, leaving behind her life and family in Portland to focus on giving Dex Foray - and the Experiment in Terror show - a second chance. But their past mistakes continue to tease and test their relationship, as does the wild and desolate terrain of the Canadian Rockies. The snow-covered peaks and ravenous forests hide an urban legend too unbelievably frightening to be true and the only way the duo has a chance of surviving is if Perry can let in the very man who sent her to hell and back.

Escher Smallwater can't sleep in. That's the least of his problems. Two years shy of thirty and recently laid off from his job in advertising, Escher has a lot to deal with in his life right now. Forced to make some changes since losing his job, his lifestyle is gone and suddenly the American Dream seems more like a nightmare. As Corporate Charlie bares his darker side by way of recessions and hiring freezes, Escher has found himself with more time to reassess his life, and he's mad as hell. He will never be a rock star or date a supermodel. He doesn't get carded at bars anymore, teenagers now think of him as creepy, and he prefers VH1 over MTV. He's never been in love, his career path has essentially disappeared and somehow, he and his neighbors have inadvertently become the drug kingpins of St. Louis. A life once filled with Ikea catalogs and cubicles now consist of consumer guerillaism, lesbian strippers and a gold-toothed thug named "Mo-Mo". All this and an impending high school reunion. Maintaining a sense of humor while exploring the darker side of contemporary culture, Rorschach's Ribs explores what happens when the first generation destined to do worse than their parents grows old and starts questioning the American Dream. Through an eccentric, colorful cast of characters and a sharp cynical wit, Rorschach's Ribs delves into a world of layoffs, recessions, target markets and the underbelly of capitalism.

Dear Reader, You met Alec Carrick in Night Fire. He returns full force--and believe me, this man's got force--in Night Storm, the third novel of the Night Trilogy which I wrote in the Fall of 1988. The Paxtons are shipbuilders in Baltimore. Alec Carrick is an English nobleman who wants to buy them out. Genny Paxton isn't at all what she seems. She dresses like "Eugene" and wants to build her own sailing ships without male interference. Alec, a man of great insight, knows exactly what lies beneath those britches. He gets Genny's goat more times than she can count. This is a love story filled with wit, humor, and outrageous circumstance. It's got more unexpected spins than a roulette wheel. Then there's five-year-old Hallie, Alec's daughter, a charmer who will take hold of your heart and never let go. Do enjoy Alec and Genny--and let me know which of the novels in the Night Trilogy you like best.
