The Basics of Communication Research with InfoTrac ...

Communication research, while relatively new in many respects, should follow several basic principles to be effective. Similar to other types of research, Communication research should be systematic, rational, self-correcting, self-reflexive, and creative to be of use (Babbie; Bronowski; Buddenbaum; Novak; Copi; Peirce; Reichenbach; Smith; Hughes & Hayhoe).

The basics of communication research (Chapter 15 : Social ...

The term communication process refers to the exchange of information (a message) between two or more people. For communication to succeed, both parties must be able to exchange information and understand each other. If the flow of information is blocked for some reason or the parties cannot make themselves understood, then communication fails.

The Basic Elements of the Communication Process

Communication is the process of transferring signals/messages between a sender and a receiver through various methods (written words, nonverbal cues, spoken words). It is also the mechanism we use to establish and modify relationships. 2 Have courage to say what you think.
