Paul Fussell's *The Great War and Modern Memory* is possibly the finest, most scholarly source on the way in which the Great War was remembered by its participants. Drawing on the memoirs of soldiers together with a forensic examination of the events that shaped them, Fussell's book is an insightful, compassionate, moving and skillfully written work. Few texts on the Great War equal its power to stir the intellect and the emotions.

The Great War and Modern Memory is a book of literary criticism written by Paul Fussell and published in 1975 by Oxford University Press. It describes the literary responses by English participants in World War I to their experiences of combat, particularly in trench warfare. The perceived futility and insanity of this conduct became, for many gifted Englishmen of their generation, a metaphor for life.

THE WAR THAT MADE US WHO WE ARE Paul Fussell's *The Great War and Modern Memory* (1975) is a tour de force and more than a tour de force. It could easily be the single book assigned for a semester-long graduate seminar focusing on how Great Britain's literary culture helped shape contemporary understanding of World War I—casting it in romantic, pastoral, theatrical and homoerotic terms—and how World War I returned the favor by shaping the western world's literature thereafter.

The European powers struggled to adapt to the brutality of modern war, with its advanced artillery, machine guns, poison gas, and submarines. Until the spring of 1917, the Allies possessed few effective defensive measures against German submarine attacks, which had sunk more than a thousand ships by the time the United States entered the war.
