Love and Attraction is a collection of papers presented at the International Conference on Love and Attraction. This book is organized into 12 parts encompassing 78 chapters that cover various aspects of the subjects, including friendship, intimacy,

Where To Download The

and sexuality. The introductory parts deal with the psychological aspects of physical attractiveness, non-verbal intimacy, attraction, and friendship. The subsequent parts examine the geographical difference in mate selection, marital relations, and romantic love. These

Where To Download The

chapters also look into the structural features of personality, behavior, and romantic love.

These topics are followed by discussions of exchange theory applications to love and attraction; the social psychology of human sexuality; relationship between sexual behavior and society; and sex therapy. The final parts

Where To Download The

are devoted to other sex related topics, including sex therapy, erotica, arousal, child sexuality, and pedophilia. This book will prove useful to psychologists, sociologists, psychiatrists, counselors, and other academic and clinical workers.

I have long been awe-struck by authors' claims

Where To Download The

Theory Of
Attraction

that their books had been in the making for 5, or 10, or even 15 years. I now have a better appreciation of the work involved in bringing a book to press. The seeds of this project have had a long germination. The impetus for this book began more than 10 years ago when I was a graduate student in

Where To Download The

clinical psychology.

Having an interest in human sexuality-and in theories on the forms of sexual attraction specifically-I was perplexed by various perspectives on this subject. Disciplines of thought that I encountered medicine, evolutionary biology, developmental psychology, gay / lesbian

Where To Download The

theory, social constructionism, anthropology, Marxism, Christianity, and others- perceived the issue so differently, so strongly, with almost no overlap. I was fascinated that the question of how and why one is attracted to either one or both sexes could elicit such conviction and divergent points of view. There seemed to

Where To Download The

There is no easy way to resolve these differences. Still, what frustrated me most in my readings were several conceptual problems among the two prominent proponents of contemporary sexuality theory: scientists and social constructionists. One of my first frustrations with biomedical and social

Where To Download The

scientists who write
about sexuality was that
they often define sexual
attraction in strict
behavioral terms, as
completed observable
sexual acts--observable
in the sense that such
acts or their
consequences are seen
by others.

The Secret opened the
