Henry Petroski (February 6, 1942) is an American engineer specializing in failure analysis.A professor both of civil engineering and history at Duke University, he is also a prolific author.Petroski has written over a dozen books – beginning with To Engineer is Human: The Role of Failure in Successful Design (1985) and including a number of titles detailing the industrial design history of ...

Henry Petroski - Wikipedia

To engineer is human; doing it right might require beavers. Erik Michelsen stands atop a beaver dam in Anne Arundel County, MD. Dave Harp. Behold the concrete road culvert: straight and narrow and lifeless, having whisked the previous day ' s rains from oceans of hard-baked asphalt with ruthless efficiency, swelling quickly to 6 feet deep with stormwater, then receding to less than an inch of water hours later.

To engineer is human; doing it right might require beavers ...

To Engineer is Human by Henry Petrosky concerns itself with the impact of failure in design. The book asserts that not only is it the responsibility of the designer to make sure things do not break, but also to be able to spot when they are vulnerable to failure and correct the problem before it becomes comprehensive and impossible to fix.
