The Italian Regulatory Authority for Electricity Gas and Water (L'Autorità per l'energia elettrica il gas ed il Sistema Idrico, AegSI), an autonomous entity created by law, is tasked with defining uniform criteria for the setting of

water tariffs. Water tariffs should be set in such a way that they provide incentives for higher investments while keeping water affordable for “vulnerable customers”.

Water supply and sanitation in Italy - Wikipedia

Water governance covers the manner in which allocative and regulatory politics are exercised in the management of water and other natural resources and broadly embraces the formal and informal institutions by which authority is exercised.
