The book introduces students to a concise study of the history of architecture, covering the various principles, qualities and factors therein. The book explains the schools of architecture that have been found around the world, explaining what is unique and stylistic about each age. It explains how architecture has changed from the time of the Egyptians and draws parallels between various styles from across the world at the same era.

World Architecture Gk Hiraskar Pdf Freel

New York City has long welcomed people and ideas from around the world while cementing its place as a symbol of power, wealth and freedom. Its architecture reflects its evolution from a Dutch fur-trading post to a global destination where people from around the world helped influence — and shape — the city.
